## TRACK MAY GO

### Owner Proposes to Do

### Away With Cyclomere.

Too Much Grief—Tales of Trouble  
Pile Up Right Along—Cost of  
Track—Racing Controversy.

C. S. Desky said last evening that unless he leased Cyclomere track in a very few days, he proposed to dump the banks into the lake, take down the fence and grand stand, pile some more earth in the lake and sell as lots for residences the land thus made. Mr. Desky seemed very much in earnest when he gave out this statement. Effort will be made to dissuade him from this purpose. It is more than likely that at least two propositions to lease the track will be made to the owner.

The man who expended \$11,000 that there might be cycling races here, has enough of the game. He says he cannot tolerate the bickerings that are brought about from time to time. The disputes growing out of the last two evenings of races have soured Mr. Desky entirely. He complains that the heavy portion of the "wrangling" has come to him, that he cannot stand it and will not.

There is 70,000 feet of lumber in that grand stand and it cost complete over \$4,000. Since racing at Cyclomere began the cash prizes and the cost of trophies has footed up to a total of \$2,700. Contingent and incidental expenses have been very heavy. It cost \$500 in cash to bring down the pioneer party of professionals from the Coast. On the other hand, the public has been liberal in patronizing Cyclomere. There have been gathered for the evening races the largest crowds ever seen in Honolulu for a "pay" entertainment. The owner does not say that he has lost money, but only remarks that the grief incident to listening to tales of troubles on racing has become too much of an interference with other business matters. Mr. Desky says he was advised against building the track, both here and on the Coast, but wanted to carry out the plan, and did not imagine that Cyclomere could possibly become such a wearing care upon him.

As the public well knows, the latest Cyclomere sensation or controversy, is about the finals of the two-thirds of a mile amateur race on Saturday evening last. Tom King won, but was disqualified by the referee because the official held that King had not done his share of "pacing" or leading before the finish. Fred Damon, who finished second, was given the first prize. King protested and announced that all his racing men and wheels would remain off the track till he had satisfaction. Yesterday King made a written protest against the decision of the referee. This was met by Mr. Desky with the proposal to have the verdict of the referee reviewed by five men agreeable to King and Damon. King accedes to this, but Damon so far urges that the decision of the track, is final. Four of the men suggested for the board of arbitration are Geo. R. Carter, Maj. J. W. Jones, Maj. C. J. McCarthy and Jas. L. Torbert. The whole matter will be further considered today.

### More Hotel Land.

The Macfarlanes have secured from Henry Waterhouse a 20 year lease on the Penhallow property immediately adjoining the Hawaiian hotel premises. This will give the hotel a very much improved appearance and will afford facilities for the building of cottages. Ground will be broken today for the new two story cottage on the site just back of the hotel, recently occupied by other cottages that have now been removed. This will be a very expensive structure and will contain 16 rooms.

## CHEAP!

There's no trouble to sell cheap goods, there is less trouble to do cheap work; but we are not looking for that kind of trade. The cheap man is always the one who makes the most money, because his goods cost nothing and allow big profits.

### WE KNOW

That no better copper-plate engraving is done anywhere than we are doing, and we also know that we charge no more for it than is charged FOR GOOD WORK anywhere in the United States.

How do we know this? We have been told so by one of the proprietors of one of the largest houses in America doing this class of work, a gentleman who was surprised, to know that such work could be done away out here in the Pacific. We did all of his work, can't we do yours also? Nothing is too difficult for us, you know.

## H. F. WICHMAN

A Model Plant is not complete without Electric Power, thus dispensing with small engines.

Why not generate your power from one CENTRAL Station? One generator can furnish power to your Pump Centrifugals, Elevators, Pumps, Railways and Hoists; also, furnish light and power for a radius of from 15 to 30 miles.

Electric Power being used, saves the labor of hauling coal in your field, also water, and does away with high-priced engineers, and only have one engine to look after in your mill.

Where water power is available it costs nothing to generate Electric Power.

THE HAWAIIAN ELECTRIC COMPANY is now ready to furnish Electric Plants and Generators of all descriptions at short notice, and also has on hand a large stock of Wire, Chandeliers and Electrical Goods.

All orders will be given prompt attention, and estimates furnished for Lighting and Power Plants; also, attention is given to House and Marine Wiring.
